

#4 Movement

Instructions: As a group, read the provided material on what is MOVEMENT regarding geography. Then continue with the Look at the Label Activity.

Activity: LOOK AT THE LABEL

Items can easily represent the world economy. You will be surprised how many countries are represented on the “made in...” labels of different products. Find out where things were made by filling in the chart below.

- (1) Start with your shoes, check the tag on the inside and find out where they were made.
- (2) Write down the brand name and the place the shoes were made.
- (3) Then move on to shirts.
- (4) When you are done with your chart, you must share with a teammate
- (5) Write down each other’s findings as well for a total of 2 brand names and made in... for each box. If the brand or place where it was made is the same, just write down one.

	Brand Name	Made in...
Shoes		
Shirt (if you need help, boys check boys & girls check girls)		
Backpack		
Binder/Notebook		
Another item of your choice
