

Dominguez and Escalante Expedition

Listen to the journal entries and draw where you think Dominguez and Escalante are.

Look on p. 70 to see the actual expedition route. Map it out.

If you missed class today here is what you need to do:

1. Cross out one of the maps on the front page.
2. On the map you didn't cross out use page 70 in the textbook to draw where Dominquez and Escalante traveled.
3. At the bottom of this page tell me what a mission and Presidios were. You can find these at the beginning of chapter four.
4. Read pages 70 and 71 about how the Utes meet Father Escalante. Write one paragraph at the bottom of this page telling what you learned.
5. Staple these pages together and turn into the basket asap.
